Meetings This Day.

Typographical Union, at half-past 8 P. M.

SUNDAY-SCHOOL ANNIVERSARY .- The anni versary exercises of the First Baptist Church Sunday-school will be celebrated to-morrow afternoon, at the church, at half-past 4 o'clock.

FATHER GARESCHE'S LECTURE at the Cathe dral Chapel, last hight, upon the subject of "Infallibility of the Church," was largely attended, and all present were well pleased with the lecturer's earnest and able manner of handling his subject.

LECTURE -A lecture will be delivered at the Hasel street Synagogue on Sunday, at 11 A. M., by Alfred T. Jones, Esq., of Philadelphia. Subject-"The Aims and Objects of the Order of Benai Berith." The public are respectfully invited. Seats free.

SURRENDERS HIMSBLF.-James Perry, who is charged with having violated the person of a colored girl named Elvira Watson, on Wadmalaw Island, and for whose arrest Trial Justice T. J. Mackey issued warrants, has surrendered himself to that officer, and been committed to jail to await trial.

THE SCOTT-WILLIAMS BURGLARY .- There was a final argument made on Thursday evening in Columbia, upon the habeus corpus sued by Messrs. Pope and Haskell, in behalf of Monday, charged with the burglary of the bank of Scott, Williams & Co. The judge refused to discharge him without bail. He was bailed in the sum of \$2000 for his appearance at the Court of Sessions in June.

SETTLED AT LAST .- Yesterday, before Trial Justices Levy and Magrath, the case of Theodore Stoney, trustee, vs. John Farrell was heard. This is the sixth time it has been up. having been submitted to five luries before, all of hich disagreed, one of them being locked up for three days. The action was brought to secure the possession of the store No. 127 Meeting street, occupied by Mr. John Farrell. It appeared in the evidence that the defendant had a lease, but that said lease should be invalid on the rent remaining unpaid one month, and that three months' rent was due. The jury decided that the plaintiff was entitled to the possession of the premises, and the sheriff was instructed to carry the verdict into effect.

Dr. Hamilton, Again .- Alexander Hamilton, a colored man, who practices medicine without a license, who, it is alleged, necessitated the holding of inquests upon some of his patients, was under arrest again vesterday. A colored woman, named Harriet Washington, sued out a warrant before Trial Justice J. G. Mackey for the arrest of Hamilton, upon the charge that he had administered to her nine love powders, which he vowed would restore to her the estranged affections of her lover. For these deses he charged her twenty-five dollars, which she paid-and so grateful was she to the doctor for promising to bring her lover to her feet again, that she gave him a gold cross. She waited patiently for her lover to come. but came he not, and losing faith in the physic and Hamilton, she has sued him for the money and cross. Hamilton was arrested.

REGATTA .- The entire population of Savannah was on the banks of the river Wednesday to witness the regatta of the Chatham Regatta Association. The first race was between shell boats for a prize purse of one hundred dollars, for which the boats Queen, Aphrodite, and Flirt were entered. The distance was one mile. The time made by the several boats Flirt, 9:24. It should be stated that this race was run against tide, which accounts for the comparatively poor time made.

The second race was between canoe boats for a prize purse of one hundred dollars, for watch the Nellie, Anonyma, King Cotton and Irene were entered. After a few strokes the rade resolved itself into one between the King Cotton and Anonyma, and resulted in the former winning. The time made by the several boats was as follows: King Cotton, 7:20; Anonythe misfortune to break an oar at the very start, which of course destroyed all chance she might have had of winning the race; but with a pluck to be commended, the unfortunate oarsman, urging his companions to do their best without him, as he would not remain a dead weight in the boat, leaped into the river and swam ashore. With but three oars, therefore, they made a right gallant fight, coming out but two seconds behind the next boat to them.

A MODEL SCHOOL .- Among the many excellent schools of which our city boasts, there is not one which surpasses the English and German school of Mr. C. H. Bergmann, at No. 82 Wentworth street. There are about one hundred and fifty pupils, male and female, under the instruction of Mr. Bergmann and his assistants, Miss Angel and Messrs. McDonald and Berkhan. These pupils are carefully, thoroughly drilled in their studies, which consist of reading, spelling, writing, English, French German, arithmetic, drawing, natural philosophy, &c. Connected with the school is a complete set of instruments for illustration in the study of natural philosophy. While every attention is paid to the development of the minds of the pupils, yet they are taught that a sound body is necessary for a sound mind, and for the cultivation of the body an excellent gymnasium has been provided. The male pupils have already formed themselves into a club, known as the German Turner Associa tion, and their expertness elicits the admiration of all who witness their performances. Besides this pleasant and healthful recreation. Mr. B. has supplied a large number of games. to use which the children have every privilege out of school hours, many of them coming back to the school-house after the day's studies are over. Many scholars who are best satisfied the farther they are off from the school-house, will scarcely believe this statement, but it is nevertheless true. Mr. B. contemplates introducing gas into his schoolrooms. When this is done he will resume his night school. A school with light, airy rooms, competent instructors, and one in which both the mind and body are developed, merits success, and it is with pleasure we can record that Mr. B. has been rewarded for his foresight and indefatigable exertions.

On Thursday, a race took place between the "Queen," "Irene," and the "Anonyma," which resulted in the first named being victorious. There was equally as large an attendance as on the first day, and as much interest manifested. One of the prizes to be contended for to-day is a beautiful piece of workmanship, consisting of a silver bound barrel, with faucet, funnel and cup of silver attached—the whole moused on silver skids, representing oak link the upper and lower counties of the

A NEW PHOSPHATE COMPANY .- The great value and increasing importance of the phosphate beds of this State are daily developing. and as an enricher of the soll of the South and a basis of a great and productive branch of industry in this city and neighborhood, their power has hardly begun to be appreciated. As a step to the building up of this industry. It is with satisfaction that we notice the growth of enterprises connected with it, and among other movements lately in that direction is the organization, on Wednesday last, of the "Atlantic Phosphate Company," which has been gotten up by a number of our most enterprising business men. This company is in the hands of citizens who are thoroughly post ed up in reference to the needs of the planter of this section, and will be prepared to manufacture fertilizers which will commend them to the patronage of the agriculturists of the country. Their works, which will be of the most approved descriptions, will be in operation sufficiently soon to have their manures for the next crop. Rumor has it that some important arrangements have been made to secure to the public increased travelling facilities. THE PIONEER STEAM FIRE COMPANY-TO THE CITIZENS OF CHARLES-TON: Would respectfully represent that the pre-sent condition of their apparatus and of their finances compel them to make that appeal to your liberality and public spirit, which has never yet been made in vain by the Fire Department of this city.

Our Engine, worn and injured in your service demands immediate and extensive repairs. Our Hose, after faithful use for five years, is now unequal to the performance of its duty, and there is a valance due for the purchase of the Engine still remaining unpaid. The pay from the city has been greatly reduced

and can contribute to no more than the current expenditures, and the resources of the Company otherwise are entirely inadequate to meet these necessities, or they would be cheerfully devoted to them without a call upon your aid.

We are willing and anxious to devote to your interest all our zeal and all our service, without recompense, and we only ask you to assist us to do so with that measure of efficiency which the magnitude of that interest demands, by enabling us to keep up our Engine and apparatus in proper order.

The oldest chartered Company in the Department, the Pioneer, in the introduction of steam power for the salvation of your property, ask you to look back upon the long years of its service, and to contribute to that efficiency that it is their pride and your interest to cherish and protect. The following named gentlemen have been appointed a Committee to wait upon the citizens and solicit contributions to the aggregate sum of Two Thousand Dollars, for the purposes above J. E. may14-stuth GAYETY IS TO GOOD HUMOR AS animal perfumes to vegetable fragrance; the one overpowers weak spirits, the other recreates and evives them. Good humor seasons all the incidents and oc-

currences of our daily existence, and is a defence against the infirmities of ill-health and other vils of life. The humors of the body have a stated and regular course to perform. which impais and impa-ceptibly guides our will, exercising a secret in-

fluence over all our actions, without our being shie to know or appreciate it. To preserve then this desirable position or state o goodness, the condition of the humors of the body, the incentive to good or bad actions, have to be kept up to a healthy standard by a remedy that will alter the character of the fluids of the body, when in a morbid state-know ve, then. that this alterative is SOLOMON'S BITTERS.

may24-tuths3 THE POPULAR TONIC OF THE AGE .- The day has gone by when a medicine without merit could command and retain the public to try many things, but in this shrewd and thoughtful age, words will not suffice without proofs, and it is by the exercise of their private judgment, men determine the relative value of the various articles recommended to their no tice through the business columns of newspapers. HOSTETTER'S STOMACH BITTERS has now been subjected to this searching ordeal for more than eighteen years, and the result is that it stands at the head of the class of remedies to which it belongs. It has distanced and lived down innumerable competitors, and is to-day the Standard Vegetable Tonic of the Western world. The happy effects which have followed its use in cases of dyspepsia, biliousness, nervous affections, intermittent fevers and general debility, and as a constitutional invigorant, have entitled it to universal confidence. Nothing can ever shake its repu tation, for it is based on the individual experiences of tens of thousands of witnesses, embracing prominent and well known citizens of every pro fession, occupation and class. There is not a city town or settlement in the United States where it | American Gardiner's Assistant-Bridgman, revis is not a medicinal staple. No druggist or general dealer would consider his stock complete without it, and the returns of the internal revenue depart. ment show that its sales exceed those of any other proprietary restoratives manufactured on this side of the Atlantic. The beneficial results derived during a long series of years from the use of Hostetter's Bitters, have convinced the whole community that the only true way to restore to health a broken down or debilitated system, or to put the human body on its defence when exposed to unwholesome influences, is to invigorate, regulate and purify it at one and the same time.
